Holiday at Both Mines Will Enable Colemanites to Join With Visitors in Festivities of the Day. Dancing at Arena Rink

Carnival Went Over "Big" and Splendid Support Given

Net Results Highly Gratifying States President McBurney in Reviewing Results of Two Days Effort—Pattinson and Ballock Were Winners of Main Prizes

The community carnival held on Saturday and Monday in aid of the skating rink was accorded good support and H. C. McBurney, president of the carnival committee, states that the net results will show a nice improvement over last year's effort. The carnival was not put on under the auspices of any particular organization, but Mr. McBurney secured the help and co-operation of business men and others in town, who turned in with enthusiasm and so helped to make this annual community event a success both from a financial point of view and promotion of a community spirit.

The Jitney dance in charge of Charlie McKinnon and Joe Immerman turned in a nice sum to the funds, the splendid music of the Knights of Rhythm keeping a big crowd of people, young and younger, tripping away with hardly a minute's let-up. The barkers in charge of the various booths performed well, and extracted the quarters from the people with the skill of professionals, so that by 11 o'clock on the second night the stocks were sold out. "House-House" proved as popular as ever in charge of Jack Rushton, while the hot-dog and refreshments stand of Albert Knowles and Frank Cell satisfied the pangs of hunger, for a hot dog makes its appeal at a carnival to those who probably will not look at them under ordinary circumstances. The carnival spirit was abroad and everybody entered into the fun. The gentlemen selling ladies' pyjamas told without a blush of the fine

qualities and materials of the goods they were selling, while one young enthusiastic salesman draped them gracefully around his neck to better display them. This booth was very popular.

The campaign for the Orthophonic and the Chesterfield proved a winner, turning in cash totalling \$74.00 for the two nights. The Orthophonic was won by George Pattinson with ticket 398, while the Chesterfield was won by W. Ballock with ticket 4891. Prime interest centered in the Chesterfield draw, and when Alberta Phillips drew the ticket and the winner

was announced, the popularity of the results was received with cheers. Four tickets had been purchased by the Ballock family, and it was "Bill's" ticket which proved the lucky one.

Splendid assistance was given in the selling of tickets at the carnival by Jas. M. Allan, and a number of young lads including B. Gentile, Gelo, Vincent, Eldio Salvador and Tony deCecco, while the premier honor of selling the largest number prior to the opening of the carnival goes to Blanche Higginbotham, a very young canvasser, who rolled up the fine total of 220 tickets sold in Coleman and neighboring towns. H. C. McBurney also turned in a large number of sales on the contest, helping very materially in making the handsome total. Jas. M. Allan with his persistent work on the two carnival nights headed the list with individual sales. The efforts of the ticket sellers are appreciated by the carnival committee, as well as of those who

had charge of and assisted in the booths. Mr. McBurney stated that he was highly pleased with the enthusiastic support accorded by the public and those who worked towards making the carnival a success in every way.

Grant Hall in the West

Grant Hall, senior vice-president of the Canadian Pacific Railway, has been taking his annual tour of inspection in Western Canada and is here shown in the grounds of the Empress Hotel, Victoria, with three old friends. They had just returned from a game of golf and the foursome from left to right is: J. E. McMillan, Canadian Pacific solicitor; Mr. Hall; Chief Justice J. A. Macdonald, and E. H. Macklin, president of the Manitoba Free Press, Winnipeg.

MAKIN'S PIGEONS WON

Three homing pigeons belonging to Charlie Makin made the flight from Whittla to Coleman on Sunday against a strong head wind, a distance of 179 miles, and on Monday two pigeons entered in the same race by J. Anderson had not arrived, though it was expected they would turn up later. One of three sent by him returned on Sunday following the arrival of Mr. Makin's pigeons. On the previous Sunday Anderson's pigeons arrived home first. This places the honors even so far.

There will be no services on August 11th, 18th and 25th at Coleman or Blairmore.

FIRE EXTINGUISHER SAVED CAR.

The Willys-Knight car owned by R. M. Greenhalgh narrowly escaped destruction by fire on Sunday. He had taken a party to near Pincher Creek, and left the car parked along side the road while they picked some flowers. Returning he noticed smoke issuing from the interior, and fortunately he carried a Pyrene extinguisher on the car, with which he extinguished the fire, which had ignited the upholstery. He carried fire insurance, so that the damage will be made good. He attributes the fire to possibly being caused by a cigarette end being carelessly thrown out of a passing car.

ST. ALBAN'S CHURCH

Sunday, July 28th, evensong 7.00 p. m. Sunday, Aug. 4th, holy communion 11.15 a.m. Choir practice, Friday, July 26th, 7.30 p. m.

There will be no services on August 11th, 18th and 25th at Coleman or Blairmore.

The Sunday school picnic was held last Wednesday at the lake. Some of the older members of the church were present with their children. Unfortunately there were quite a lot of children absent owing to some being away on their holidays and some not caring to go.

Thanks are due to the following for loan of cars: Messrs. J. Rushton and sons, Oliver Barringham, J. Rogers, F. Graham, Cecil Milley, A. Duffield, and Mrs. and Miss Clifford. Also to the ladies who assisted.

The ladies of St. Alban's W. A. wish to thank all those who donated to the pantry sale on Saturday; also to Mr. Laslett for the use of his store.

Local News

Mrs. Alex Gresch, a former Colemanite, won a car valued at \$1800 in a carnival at Vancouver, but as she already owned a car, she took \$1500 in cash instead.

Joe Spiveak came down from Corbin to take in the carnival and to fraternize with old friends here. He still has a warm spot in his heart for Coleman.

Owen Williams, a former school principal here, passed through with his family last week, en route from Vegreville to Vancouver. He met Maurice Cooke while here, and asked to be remembered to old friends in Coleman.

The East Kootenay Power Co. recently gave their staff a Senior plant holiday to visit the Sullivan mine and concentrator at Kimberley, and paid their expenses for the trip. Mayor Burns was among the party, and states that it was an interesting and delightful trip.

DELIGHTFUL TRIP TO LILLE

A motor trip off the beaten path is to the abandoned mining town of Lille, several miles south of Blairmore, which was visited on Tuesday afternoon by Mrs. Clifford and daughters Hilda and Elinor and Mr. and Mrs. H. T. Halliwell.

The road leads past the fine club house of the Blairmore golf course, winding steadily up the slope of the mountain for several miles until the old town is reached, the road thence being in fine condition and which is maintained by the West Canadian Collieries. A beautiful view is obtained from various points along the route. The old buildings of the deserted village hold interest for those who love to delve into early history of the Pass, and one object that excites curiosity and interest particularly is an old railroad passenger coach standing on rails in front of the hotel. It bears the name of the Pennsylvania Railroad in big letters which is about all it retains of departed glory, with the exception of a framed card inside warning passengers not to ride on the platform of the coach.

A band of wild horses appear to have taken possession of the basement of the hotel as a shelter from the wind and sun, and the only inhabitants of the place is a family who have lived there for two years. The little girl stated they have had a school there, and that four pupils constituted the total attendance. The rails of the greater part of the railroad have been taken up, and it is reported they were sent to France during the war. There is quite a dizzy bridge which can be seen as one returns towards Bellevue, and one rummages on the many thousands of dollars that must have been sunk in building a railroad and developing a mine back in the hills there. Did time permit, one could unfold quite an interesting story of this mining town's rise and fall. Its name—Lille—reminds one of the famous town in France which attained such prominence in the early days of the Great War when the Huns swept through Belgium.

Fish Hatcheries Are Doing Good Work

Local Streams Re-stocked with Fry from Waterton Park Hatchery.

110,000 cut-throat trout fry were placed in the creeks of this district on Tuesday, under the direction of Mr. W. C. Cable, of Waterton Park Hatchery. Charlie Makin, secretary of Coleman Rod and Gun Club, and Joe Plante, with some other helpers, assisted Mr. Cable in the placing of this consignment in Allison Creek, Star Creek, McGillivray Creek and Blairmore Creek. They were brought up by road from Waterton, and on arrival still had the ice in the top of the containers.

The attention being given by the Fisheries Dept. in re-stocking the mountain streams is very much appreciated by all who love angling, and the department hopes that in order to make worth-while fishing, all sportsmen will see that the rules governing fishing are rigidly observed.

BLANCHE DOES GOOD WORK

Little Blanche Higginbotham is a rattle which it is hard to beat when it comes to selling carnival tickets. As a result of her good work, she turned in \$49.50 from the sale of 25c tickets on the Orthophonic and Chesterfield suite, which represented 220 tickets. This is a record for one of her age, and she is to be congratulated for her fine spirit in selling the tickets. Truly she is a good booster!

Mrs. MacAulay of Saskatoon is spending a few weeks visiting her parents, Mr. and Mrs. Beck of Star Creek Fox Farm. Her husband returned to Saskatoon last week after driving up here and spending a week here, and will probably return later on.

Island of Orleans—Island of Bacchus

The ship may be as old as the wayside shrine, and only seen tramp where Cartier found the Indian and the vines.

"WE likewise found quantities of vines such as we had seen nowhere else in the world and which led us to call this the 'Island of Bacchus'." Thus the Saint Malo captain, Cartier, who discovered the Isle of Orleans in 1492 first named it.

Four hundred years. Ships of the adventurer, the explorer, the pioneer, the builder of empire and later, great ships of commerce followed those of Cartier, but the Isle of Bacchus has not known them all and has slept before the portal of the new world for many generations. Not that it has been forgotten, but that the bigger ships have gone by. Industry has not destroyed its charm and today it remains, if not the pristine Isle of Cartier, a piece of old France as translated by those who shortly followed him.

The illustrations above typify the island. "Progress" has been slow. Its people have learned the secret of content. Their tongue, their modes, their

homes are of a century ago. They weave their catagone; live in homespun. They are blessed with old people. Yet, a short ferry distance away, Quebec with its ramparts, its Chateau Frontenac and its ocean shipping, keeps pace with the advance of the times.

At St. Petronille, one of the quaint little villages where wealthy Quebec has its summer homes, an Inn has this year been opened, so that it is now possible for the visitor to rest for a while and absorb at leisure the charm and beauty of the forgotten island. But he must be prepared to eat of the good viands of the Habitant and to live a little closer to the homespun. The people of the island will welcome him with good-nature but they have little liking for the modern. They have the secret of content and good-living, on the Island of Bacchus.

The name of the new Inn is La Catagone and it once was a marginal mansion.

'Fresh from the gardens'

What Is a Good Government?

Hon. R. D. Bennett, in addressing a meeting at Stratford, Ontario, recently asked a question, and in answering it, gave a definition of a good government. He said:

"It is not time that we had a government that would look after the interests of Canadians and Canadians only? You say that is a selfish policy. Ah, my friends, all good governments are selfish and the measure of the goodness of a government is the measure of its selfishness."

Mr. Bennett was, of course, discussing the relative merits of the tariff policies of the Liberal and Conservative parties, and especially so in the light of the impending tariff changes at Washington. These being issues of a partisan character it is not our intention to discuss them, or express any opinion in regard to them. But it is quite in order to analyze and discuss Mr. Bennett's dictum that "all good governments are selfish," and that the measure of the goodness of a government is the measure of its selfishness.

Governments under our democratic system of responsible government are, or should be, a reflection of the people themselves. They are brought into being by the expressed will of the people and are supposed to give expression in legislation and administration to the wishes of the people. Therefore, if a good government is a selfish government, it follows that selfishness is the sign manual of a good people, and that the selfishness of any people is the measure of their goodness. Do the Canadian people believe this? Are they prepared to accept it as true?

Acceptance of the dictum would be in direct and open violation of the teachings of Christianity. It would be to nullify and reject the Golden Rule. It would set up a standard of conduct for nations and peoples that could have but one result—continual warfare.

If the measure of the goodness of a government is the measure of its selfishness, then a "good" government in Manitoba, Saskatchewan, Alberta, or any of the other Provinces, would be one which pursued a policy designed to advance its own interests regardless of the interests and welfare of any other Province, or of the Dominion, or the Empire as a whole. Such a policy would mean endless friction, constant turmoil, the ultimate smash-up of Confederation.

Suppose, for example, that rightly, or wrongly, the Western Provinces of Canada insisted that their particular interests demanded the complete removal of all customs tariffs, and they refused absolutely to give any consideration to the views, the interests, the welfare of the Eastern Provinces which insist on tariffs. What would be the result?

All government is a matter of compromises. No one group of people, no one community, no one province, can selfishly insist upon acceptance of its views and its policies to the detriment of all other groups, communities and provinces. But if selfishness is to be the measure of a good government, then, insensibility by each group, or community, or province, upon its own views and policies means that any and all compromise will be impossible, and government itself must fail.

Acceptance of Mr. Bennett's dictum would condemn the governments of Great Britain for many decades past as the worst governments of the world, because it has been the policy of British Governments to adopt policies of unselfishness, to assume heavy burdens and accept great responsibilities in behalf of backward peoples and smaller and weaker nations. Great Britain unselfishly entered the war against Germany in defence of the rights and integrity of Belgium. Following the war Britain waived all debts owing to her by other allied countries, save, and except an amount sufficient to cover her own indebtedness to the United States. These are but two comparatively recent examples of British policy, but it is being exemplified at almost every meeting of the League of Nations. That League, for example, could not exist five minutes if the nations of the world were animated by, and acted upon Mr. Bennett's definition of what constitutes a good government.

The most selfish form of government is an absolute autocracy. How would Mr. Bennett like Premier Mackenzie King to adopt the selfish attitude of Mussolini in Italy, take all powers of government into his own hands, and prohibit any opposition parties from functioning? That's selfishness in government. Is it good? Whatever Mr. Bennett may think, the people of Canada want none of it.

Suggests Powerful Signals For Vessels

Sea Should Be Better Illuminated
Says French Writer

A well-known French writer has pointed out that ships have been backward in making use of the great improvements made in modern electric lighting. He states that in this modern age of illumination the sea is the only part of the globe which is plunged into obscurity at nightfall, and recommends that ships should employ powerful signals like the headlights of motor cars. Undoubtedly the weakness of ships' lighting is a contributory cause to many collisions that occur at night, and the

fuller study of the possibilities of more powerful electric light signals is worthy of the labors of the Conference (the International Conference for the Safety of Life at Sea.)

Holstein Bull Goes East

Prize Winner From Strathmore Purchased By Quebec Interests
The Raymond Farm, at Vaudreuil, Quebec, recently purchased a Holstein bull from the Canadian Pacific supply farm in Strathmore. This young bull, Strathmore de Winton Matchless, was junior champion last year at Calgary, Edmonton and Saskatoon, although defeated at other shows by his herd mate Strathmore McKinley Fairchild Wayne.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia is all that is needed. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Enjoy the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

New 'Plane Is Climber

British Machine Reaches Four Mile Height In Fourteen Minutes
An all-steel airplane that can climb to a height of four miles in less than 14 minutes is the latest addition to Britain's air fleet.

The plane is a single-seater equipped with a super-charger and specially-gear engine motor developing 400 horse power. With a full load of machine guns and ammunition in addition to electrically heated clothing and oxygen breathing apparatus, it can climb to a height of six miles. Its top speed is 185 miles an hour.

The plane is intended to take off from a home defense aerodrome and to climb rapidly to get above enemy raiding machines as soon as information is received that they have crossed the coast.

LIFE WAS A BURDEN

Health Restored Through the
Use Of Dr. Williams' Pink
Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I was unable to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail post paid, on receipt of price, 50c. Try them today.

Developing Trade

Increased Travel To The West Indies
Follows Inception Of New Service

Since the inception of the new service between Canada and the British West Indies, by the R.M.S. Lady Nelson, in December last, the Canadian National steamship body has been practically booked to capacity on every sailing. Traffic from Canada to the West Indies has developed tremendously since the inception of the new Canadian National liners, and there has also been an increase of travel from the West Indies into Canada particularly in the summer time when attractive rates give the West Indies business man an opportunity of going to Canada to study the markets there.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion, restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Horses Live In Zoo

The stable of a London horsekeeper is a zoo, the animals sharing the house with the horses. There are 100 horses in the stable and with them, living contentedly, are two Indian monkeys, a wild hare, a vixen, pigeons, rabbits, canaries and foreign birds.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Sunspots and Birds

A record kept at Montdidier, France, 1784-1869, of dates of arrival of birds and rainfall reveals a marked relationship to sunspot variation, according to investigations made at the Dominion Observatory, Ottawa. For instance, the cuckoo on the average arrived two weeks later at sunspot maximum than at minimum.

Corn cause much suffering, but Hotiway's Corn Remover offers a speedy, sure, and satisfactory relief.

Very Considerate

"I just had a phone call from Skippy. He's the most considerate boy I ever knew."

"What did he have to say?"

"He wanted to know if I got home all right from the dance he took me to last night."

Keep Minard's Liniment in the Medicine Chest.

No Unemployment Problem In Iceland

Country Offers Great Opportunities Through Undeveloped Land

Iceland has no unemployment problem, not because folks have to work to keep warm up there, but because Iceland is an undeveloped land of great opportunities.

The unemployed of Reykjavik totalled eight men on May 1. Six of them were more than 60 years old and in ill health. The other two said they had just left their jobs, and could get better ones.

Iceland, peopled with only 100,000 inhabitants, could comfortably find accommodation and employment for 900,000.

Iceland wants dirt farmers, not men to keep the bright lights of Reykjavik burning. The native Icelanders are good farmers, but not scientific agriculturists.

Government authorities maintain that Iceland could produce far greater quantities of agricultural products than at present, as the soil and climate are excellent for many crops.

An Important Industry

General Public Does Not Realize Value Of Canadian Fish

The fishing industry is one that rarely receives much attention from the general public, but it is an important and growing industry in this country, as one realizes in scanning the concise items sent out from time to time by the fisheries branch of the Ottawa. We catch them all the way from sardines to whales. For example, we sold \$2,071,000 worth of fish, nearly all of them, to Australia in that country's fiscal year, 1927-28. In the first two weeks of May, this year, the fisheries branch, taken by a company operating from Rome Harbor, B.C. The whales taken off British Columbia are used in production of oil, meal, fertilizer, and are valuable, too, for their whalebone.

Maintains Its Popularity

Canadian Salmon Still Holds First Place As To Money Value

Canadian fish have won a great reputation abroad, a reputation that shows in accumulating orders on an expanding scale. This country's salmon—for years the most valuable commodity in the catch—still maintains its popularity.

Cod, which appears to have been the first lure for the hardy European fishermen of the long ago, comes next, and the succulent lobster has third place. Sardines are in the swim too, there have been fine catches from New Zealand and Australia of late years for these tasty fish and the trade in them grows.

The Friend Of All Sufferers. Dr. Thomas' Elixer is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a salve that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Valley Of A Thousand Falls

The name Valley of a Thousand Falls, in the Mount Robson District, British Columbia, was bestowed by the Rev. G. R. Kinney, who first explored the region with Dr. A. P. Coleman, and participated in his attempt to climb Mount Robson.

Relieves Asthma At Once. If you could read the thousands of uncollected letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incident and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Moore Jaw Tourist Camp

Additional facilities are being provided at Moore Jaw Auto Tourist Camp. Last year about 7,000 people used the camp and the present season is expected to witness a considerably increased attendance.

Eliminating Level Crossings

Will Take Time But Pund For This Purpose Is Available

It is to be recognized that \$200,000 a year will not make for very rapid progress in eliminating the many hundreds of level crossings in Canada, but this fund, known as the railway crossing fund, at least offers opportunity for gradually getting rid of some of the worst of these death-traps. Dr. S. J. MacLean, assistant chief commissioner of the Dominion Board of Railway Commissioners, has drawn attention to the existence of this fund and suggests that it be available in Saskatchewan.

Dr. MacLean has pointed out that the sum of \$200,000 is voted annually by Parliament for the elimination or improvement of railway crossings, and this sum is at the disposal of the Railway Board to distribute as it sees fit. Alberta has recently been granted a considerable amount, and Manitoba has also taken advantage of the fund. Manitoba, in fact, in co-operation with the Railway Board, has done good work in getting rid of some dangerous railway crossings. This has been done by minor changes in roads and highways, making it unnecessary to cross railway tracks.

Some day the authorities may undertake to eliminate every level crossing in Canada, but, on account of the huge expense that would involve, the time appears a long way off. Meanwhile a good deal can be accomplished by the means outlined, and Dr. MacLean's suggestion ought to be widely considered.—Regina Daily Post.

Canadian Teachers' Federation

1930 Convention Will Be Held At Edmonton

The selection of the venue for the 1930 convention of the organization, the election of the executive committee and the adoption of a number of resolutions comprised the final business transacted at the closing session of the tenth annual conference of the Canadian Teachers' Federation, Quebec.

Edmonton, Alberta, was chosen for next year's conference at a date to be decided later by the executive committee.

The following members were elected to the executive committee of the federation: G. H. Ford, New Westminster, B.C.; A. J. Powell, Ford, Sask.; J. R. Mackay, Saskatoon, Sask.; A. E. Heard, Winnipeg, Man.; J. E. Robertson, Toronto, Ont.; Miss L. E. Brittain, Montreal, Que.; H. C. Ricker, West St. John, N.B.; J. A. D. Good, Truro, N.S.; and C. B. Jolly, Summerside, P.E.I.

Caution Is Necessary

Motor Drivers Should Use Heads As Well As Horns

"Use your horn! that's what it's there for," is the sound advice of a trade authority to motorists. He urges them not to steal up behind the unsuspecting pedestrian or pass another vehicle from the rear without giving some signal. "Get the horn-blowing habit," is his injunction. But drivers should also be careful to use their heads, or what are supposed to be heads. Horn-blowing should not take the place of caution. A blast of the horn neither entitles the blaster to the right-of-way nor guarantees him a clear path.

Walter: What's de matter with dat egg, boss?

Diner: It was served too late to be good egg and too soon to be good chicken.

Minard's Liniment for Earache.

Denied Entrance To States

Young Toronto Inventor Claims He Has More Powerful Substitute For Gasoline

Denied entrance into the United States even for an hour, during which time he had expected to lay his invention before officials of the General Motors Corp., Jack Star, 197 Grace Street, Toronto, claims that he has a lighter and more powerful substitute for gasoline.

Mr. Star is a comparatively recent arrival in Canada, his name in Europe being Jacob Starselsky. He is a former racing motorcyclist, and said he had been working on his formula for nine years and had visited Europe, Asia and the continent in search of sources of supply. He carries credentials from Sir Herbert Samuel, British commissioner for Palestine, Mustafa Kemal Pasha and other notables. His researches have involved great expense and long study, he says, and he is working now to obtain world patents on his discovery. He declares he had made arrangements with Frank J. Kinsinger, attorney, of Detroit, to assist him. He was denied entry to Detroit, however, for an hour, although he had offered to leave his car with the authorities at the ferry dock.

New Kind Of Festival

Distribution of 100,000 toothbrushes to children in the primary public schools of Chile will be a feature of the "toothbrush festival" to be held throughout the Republic next fall under the auspices of the Chilean Ministry of Education.

The blood absorbs about two pounds of oxygen daily.

It isn't the girl who fires up quickly that makes the best match.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castorol. No sooner does than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castorol is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea. Give it, too, for older children. Twenty-five million bottles were bought last year.

**Fletcher's
CASTOROL**

GERMANY TO ACT AS INTERMEDIARY IN EASTERN CRISIS

Berlin.—The German government has agreed to take over the interests of China in Russia, and Russia in China, for the period in which direct diplomatic relations between those countries remain disrupted. It was emphasized on all sides that this was a certain indication of the administration of the Chinese Eastern Railway.

Requests for its good offices came to the foreign office from Russia through the German ambassador at Moscow, and from China, through the legation of that government here.

The break between Russia and China over the Manchurian situation has become a diplomatic actuality with the German government's agreement to take charge of Russian interests in China and Chinese interests in Russia.

Nanking.—Formal notification of Russia's decision to cease relations with China was received at Nanking in a second note from Moscow, which carried out the warning of the first Russian note of July 13.

President Chiang Kai-shek summoned an emergency conference of Nationalist government leaders to consider the Manchurian question, after receipt of a telegram from Governor Chang Hsueh-liang that "the situation is extremely grave" in view of Russian troop concentration along the frontier.

The Nationalist government has apparently not lost hope of reaching an amicable settlement with Russia. Japan was possibly prepared to intervene between Russia and China in the interest of peace in the Far East. Premier Hamaguchi and Foreign Minister Shide Hara, while not "officially" informed of developments, conferred on the situation as conveyed in the press reports.

Moscow newspapers continued strong disapproval of the Chinese reply to the original Russian note.

Seattle Water Front Fire

Union Pacific Dock Is Completely Destroyed By Flames

Seattle.—In Seattle's biggest waterfront fire since 1914, the Union Pacific dock was completely destroyed, with damage estimated at \$1,000,000. Six injured men were covering from burns and suffocation at the Providence Hospital.

The fire started beneath the flooring on the Bay end of the dock. Apparatus was drawn from twenty stations to fight the blaze, and traffic stalled on business streets while engine and truck companies roared down Seattle's hills to the dock. The city's three fire boats were also called out.

File Incorporation Papers

Three Montreal Spinners Form Corporation With \$50,000 Capital
Sacramento, Calif.—Three spinners, so they declared, of Montreal, Province of Quebec, Canada, have filed articles of incorporation with Secretary of State Frank C. Jordan. The papers entitle them to engage in any kind of business from building railroads to publishing newspapers under the name of the Plaza Service Corporation, on a capital of \$20,000. The young ladies who legally admit they are spinners, are Misses Jila Doloreux, Bertha Cormier and Jessie Dickson.

Will Rescue Stranded Airman
Ottawa, Ont.—The department of marine has made arrangements to have the Canadian government vessel "Acadia" call at Port Burwell in about ten days and fire the Congreco flyers who are stranded there following the destruction of their plane. The "Acadia" will take the flyers to Port Churchill.

Four Die In Fire

Cornwall, Ont.—Explosion of a coal-oil stove is believed to have caused a fire which swept five residences on Guy Street, East Cornwall, causing the death of four persons who were trapped in the burning building and injuring four others. Property loss is estimated at \$25,000.

Expect Larger Apple Crop

Ottawa.—Canada will have a big apple crop this year. The commercial crop is expected to be 11 per cent. greater than last year and 21 per cent. greater than the five-year average with a total of 3,609,417 barrels.

W. N. U. 1795

London-Paris Electric Railway Is Planned

Scheme Would Employ Fifty Thousand Men For Ten Years

London, Eng.—The Observer says that the committee on English channels and communications, which will report late this year, probably will outline plans for an electric railway from London to Paris at an estimated cost of \$900,000,000.

The reported plan calls for a road which it would take 50,000 men ten years to build.

The plan contemplates twin tunnels under the English channel, the Observer said, each 23 feet in diameter and 44 miles long. The line would use a railway track on a seven-foot gauge.

Tremendously powerful electric locomotives would be used to haul trains from London to Paris in the rapid time of 2 hours and 45 minutes, if the plan outlined by the newspaper is carried out.

Will Head New Bank

Hon. Sir Robert Borden Elected President of Barclay's Bank

Montreal.—The Right Hon. Sir Robert Borden, former prime minister of Canada, was elected president of Barclay's Bank, Canada, at the first meeting of the shareholders held here.

Sir Robert will assume his new duties on September 3, when the bank will commence business. Arthur B. Purvis was elected vice-president, and J. R. Booth was appointed manager.

In addition to Sir Robert and Mr. Purvis, the board of directors, Hon. L. A. Taschereau, premier of Quebec; A. A. Magee, W. O. Stevenson, H. P. Atton, and J. S. Cressley.

Lower Potato Crop

Canadian Acreage Shows Five Per Cent. Decrease From 1928

Ottawa.—The Canadian potato acreage indicates a five per cent. decrease from 1928 figures, with 588,900 acres as compared with 609,065 acres last year. Western provinces report practically the same acreage while Ontario, Quebec and the Maritimes all report slight to fairly heavy decreases. In British Columbia a good crop is anticipated. In the prairie provinces dry weather conditions are creating fears that the potato crop will be light this year.

Defer Driving Golden Spike

Ottawa.—The golden spike which will mark the completion of the Hudson Bay Railway will not be driven this year after all. Chief Engineer Crowski, of the Canadian National Railways, has returned from an inspection of the railway and reports that a million yards of ballast must still go down, and it will be October before this work is carried out. It will be 1930 before the railway can be considered as completed to tidewater.

No Cause For Alarm

Edmonton.—General conditions in the west do not give cause for any alarm, over the danger of unemployment this winter, was the opinion expressed by Hon. Robert Forke, federal minister of immigration, on reaching here from the East. He was accompanied by W. J. Egan, deputy minister, and had on his program an immigration conference with the provincial government.

Grain Board Appointment

Ottawa.—The appointments in connection with the re-organization of the grain board will not be made until the first August meeting of the Dominion cabinet. Hon. James Macdonald, Minister of Trade and Commerce, made this announcement. The minister declined to intimate how many of the present board would be replaced by new men.

Many Students From West

Kingston, Ont.—Queen's summer school, in progress now, attracts students from all parts of Canada, Saskatchewan sends 23, Manitoba 3, Alberta 8, and British Columbia four. Two are from the United States and one from China. Canadian history is strongly emphasized. The students enjoy the historic places in Kingston and the use of Queens library.

B. C. Fire Losses Higher

Vancouver.—Fire losses in British Columbia during 1928 amounted to \$2,067,554, against \$2,822,905 in 1927, showing an increase of more than forty-four thousand dollars, according to the annual report of J. A. Thomas, provincial fire marshal.

Had Miraculous Escape

Vancouver-Saleman Planned Under Interurban Car Had Hand Injured

Vancouver.—Charles Kinneburgh, aged 60, a Vancouver salesman, was planned for more than a half hour in his demolished touring car under a big steel British Columbia electric interurban car, but escape with a bruised hand. The interurban had to be jacked up before he could be released.

Kinneburgh was driving across the intersection when the interurban crashed into him, overturned his car and ran up on top of it. Although the electric car was crowded, no one on board was injured.

Kinneburgh was imprisoned in the driving seat of his automobile with only his head and shoulders visible. Police squads, railway employees and ambulance men laboured feverishly to extricate him, but without success until a large jack was brought and the interurban lifted. The imprisoned man directed the operations, although suffering agony because of the manner in which his hand was caught. After his release it was found at the General hospital that he had suffered no other injury.

RUSSIA BREAKS OFF RELATIONS WITH CHINA

Moscow.—Russia has broken off diplomatic relations with China.

The Soviet government made public its reply to the Chinese note, the latter having come in response to an ultimatum from Russia. In this note the Soviet Union said that all means of reaching an amicable settlement had been exhausted.

The note placed the entire responsibility for all consequences upon the Chinese government. It announced also that all Soviet diplomatic and consular officials and all government commercial representatives would be recalled at once from China.

It further declared that all Soviet officials would be recalled from the Chinese Eastern Railway; that all railway communications between Soviet territory and China would be suspended, and that the diplomatic and consular representatives of the Nanking government would be ordered immediately to leave the Union of Soviet Socialist Republics.

The Russian action in breaking off diplomatic relations with China came at the expiration of time set in an ultimatum which the Soviet Union dispatched to the Central Republic headquarters on July 13. That ultimatum gave the Nationalist Government, at Nanking, three days in which to rescind its action in seizing the Chinese Eastern Railway in Manchuria.

It also demanded restoration to office of the Russian officials who had been deported from their places in the railway and the liberation of all Russian nationals who had been imprisoned. By the terms of the ultimatum, the closing of Russian institutions in Manchuria, such as banks, railway unions, and business syndicates was also to be rescinded.

Revisit Scene of Exploits

Left to right they are James Stephens, C.P.R. pensioner; and Tom Wilson, discoverer of Lake Louise in the early eighties. The photograph was taken recently at Banff, Mr. Stephens, who now lives at Oak Lake, Man., was astonished at the changes at Banff since he first saw the place fifty years ago. Then it was all virgin forest; nowadays it has a first-class hotel and what were rough tracks through the timber are

MAKING TOUR OF CANADA

Rev. W. C. Poole, Christ's Church, Westminster, president of the World Sunday School Association, who is making a tour of Canada.

Canada Wins Kolapore Cup

Eight Marksmen Recapture Famous Trophy Lost Last Year

Bisley Camp, Eng.—Canada won the Imperial Kolapore Cup. Eight marksmen picked from the Canadian Bisley team recaptured the famous trophy Canada lost in 1928, by a margin of 33 points over the Mother Country, with India, Guernsey and Jersey following in that order.

The Canadian team aggregate was 1,083, while the Mother Country aggregated 1,050. The cup was shot for at three distances, 300, 500, and 600 yards.

Canada had gained a lead of 18 points at 300 yards. At the 500-yard distance their team aggregate had reached 729 points to 703 for the Mother Country.

The standing of the five contesting countries at the 300-yard distance, first of the three ranges, was, Canada, 360; Mother Country, 342, India, 336; Guernsey, 333; Jersey, 325.

Churchill Coming To Canada

Former Chancellor Of Exchequer Will Visit Alberta Oil Fields

Calgary, Alta.—Rt. Hon. Winston Churchill, former chancellor of the exchequer of Great Britain and occupant of other important cabinet posts in the Old Country will visit Calgary for three days in August. He will arrive late on August 24, and will remain until August 27. He will then proceed to Banff for a brief visit before going to the coast. This information was received through private sources.

He will visit Turner Valley oil fields and possibly some of the coal areas in the Calgary district.

Torrential Rains In India

London, Eng.—Exchange Telegraph dispatches from Bombay said widespread floods were reported in the Sind division of that province. At Sukkur Barrage the entire township has become submerged, with 12 deaths. In Middle Sind hundreds of cattle died from exposure in torrential rains. Miles of desert have been transformed into a huge lake.

Government Is Powerless

Cannot Refuse Clearance To Liquor Boats Under Present Law

Ottawa.—The matter of refusing clearances to liquor-laden boats destined to the United States is not within the competence of the federal government as the law stands at present, nor can it come within that competence until authority for such a course has been given by act of parliament.

This was the statement of Hon. W. D. Eiler, minister of national revenue, in an interview. "I adhere to the sentiments expressed on that subject last session, and I am convinced that subsequent developments have borne them out."

Reviews Boy Scouts

Premier King Addresses Contingent Going To International Jamboree

Ottawa.—Canada's Boy Scouts contingent to the International Jamboree opening at Birkenhead, England, on July 27, was reviewed on Parliament Hill by Premier W. L. Mackenzie King. Later, addressing the Boy Scouts and leaders—representative of every province of the Dominion and the Yukon Territory—in the Hall of Fame, in the parliament building, the Prime Minister made an inspiring appeal to the youth of this country for a full realization of citizenship in this Dominion and in the Empire.

Postpones Atlantic Flight

Unlikely That Coste Will Make Attempt This Year

Paris.—It appeared improbable here that Dieudonne Coste would make another attempt to fly across the Atlantic this year. He has not abandoned his plan, but when asked when it might be carried out he replied laconically: "There is no hurry." The hero of the flight, who built the aeroplane and its motors, have been silent concerning a new attempt, which gave support to the growing belief that it was not likely to be in 1929.

Berlin-London Television Service

London, Eng.—Within two or three months a telegraphic transmission service for photographs, pictures and similar matter will be opened between London and Berlin for the general public. This announcement was made in the House of Commons by Hon. H. B. Lees-Smith, postmaster-general.

Preparing For Trip

Friedrichshafen, Germany.—Dr. Hugo Eckener has stated definitely that the next flight of the dirigible, Graf Zeppelin, to the United States, has been planned for the first week in August, but that the date has not yet been fixed.

WILL REQUIRE LESS HARVEST HELP THIS YEAR

Winnipeg.—Not more than 25 per cent of the harvest help that hurried westward to the prairie provinces last summer to assist in harvesting a bumper crop will be required this year to clear a comparatively small showing of grain, a promising crop indeed last spring, but one that has suffered from the ravages of a boiling sun, continuous waves of intense heat and lack of moisture.

Where a force of 50,000 husky young men from Eastern Canada augmented by several thousands young Englishmen brought over for the purpose, were put to work last year harvesting thousands of acres of wheat, probably 10,000 and certainly not more than 15,000 will be sought to work in the west's heat-stricken fields next month.

This was an estimate given recently by J. A. Bowman, general superintendent of employment for Manitoba, when interviewed by the Canadian Press.

The unemployment situation throughout the west is not considered serious, in the opinion of Mr. Bowman. The number of men and women without work in Winnipeg and other centres at the present time, he said, but the situation was not at all unusual. No difficulty is anticipated by the Manitoba unemployment bureau in placing hundreds of available men now here when harvesting gets under way.

He added that only a small number of outside help would be needed if the dry weather that is now prevailing in all three prairie provinces continues for another week.

ANNOUNCE NAVAL DISARMAMENT TERMS SHORTLY

London, Eng.—A full statement on naval disarmament negotiations between Great Britain and the United States may be made in the House of Commons before the Parliament rises at the end of July, Prime Minister Ramsay MacDonald announced.

The Premier said he was doing his utmost to expedite the negotiations but that he was not certain the statement would be forthcoming.

Besides discussing disarmament, the House of Commons heard from the Right Hon. J. R. Clynes, Home Secretary, just why Leon Trotsky, exiled Bolshevik, wasn't permitted to enter England.

Right Hon. Winston Churchill, energetic and insistent in opposition as he was a leading cabinet minister, fairly prodded the Laborite Premier into a disarmament statement.

Premier MacDonald characterized as "a most unworthy suggestion" a question by Churchill whether it was to be understood that "a most grave and important decision of this kind is being withheld until parliament has separated." The Premier explained that it was obvious the question was not in his hands alone, that a vast complex set of circumstances existed and that when one dealt with international affairs it was not with a cabinet or a department alone.

"I hope the cabinet will not ask me to tie my hands," he added.

In a statement regarding Trotsky, Mr. Clynes disclosed that the British Government feared the difficulties that might arise in securing the fallen Bolshevik's leader's departure from Britain if his presence should become embarrassing.

In some circles in Britain it has been felt that the manner of Trotsky's application for admission to England was ill-advised. He made the request immediately after the Labor Government came into power, expressing his sympathy for the new administration. At a time when their critics were searching for every opportunity to embarrass them, Labor leaders were most careful to make no gesture toward Trotsky which might be misinterpreted. The question of the attitude of the Dominions toward resumption of diplomatic relations between Great Britain and Russia was again dealt with in parliament when members pressed for more information on the correspondence between Britain and the Dominions.

Received By Prince

Professor W. L. Carlyle Visits His Employer At St. James's Palace

London, Eng.—Professor W. L. Carlyle, manager of the "B.P." ranch at High River, Ala., was recently received by the Prince of Wales at St. James's Palace.

Nothing was said as to the conversation between the Prince and his ranch manager, but undoubtedly his royal highness evinced a keen desire to know how the ranch was progressing. He has often intimated he was looking forward to another visit to the ranch.

May Avoid Ontario

United States Tourists Complain About Police Discrimination

Windsor, Ont.—Aroused by complaints of police discrimination in Ontario against United States tourists, the Detroit Automobile Club has sent out a circular of warning to all tourist bureaus on highways leading to Ontario. It was reported by Richard Harris, managing secretary of that organization. The Detroit Club has suggested use of the all-American route to the east so as to avoid Ontario "if the tourists want to be sure of fair treatment," he said.

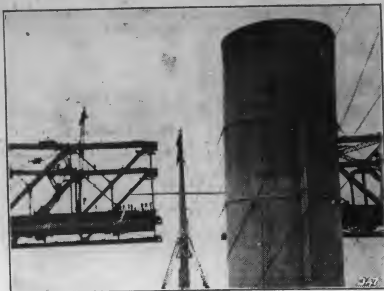

Northeast Will Appeal

San Francisco, Cal.—Counsel for Gordon Stewart Northcott, convicted slayer of little boys on his Wineville "murder farm" were ordered to file briefs on his appeal before August 3. The supreme court of Northeast is under sentence of death and his mother is serving a life term in San Quentin for participating in the same crime.

Poland Honors Aviator

Warsaw, Poland.—The Polish scholar Iskria will bring the body of Major Ludwik Idziowski back to Poland, where honors will be paid it. Religious ceremonies have been held throughout Poland in memory of the aviator.

Curious Optical Illusion

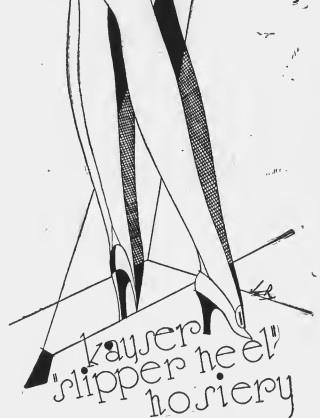

The Duchess of York, 20,000-ton Canadian Pacific trans-Atlantic steamer, is not going to crash the new bridge which, a few days after this picture was taken, was completed across the St. Lawrence in the harbor of Montreal, although the odd result of the photographer's work makes a smash-up seem almost inevitable. As a matter of fact the bridge is actually 26 feet above the tip of the liner's foremast which itself is 30 feet higher than the funnel. The midjet figures of the steel workers on the bridge give another indication of the great height of the structure.

Smoking forests or smoking chimneys—
WHICH?

WE CAN'T HAVE BOTH

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Issued by authority of
Honourable Charles Stewart,
Minister of the Interior.

a little truth
about hosiery

Kayser "Slipper Heel" hosiery is all that it pretends to be—an article of wear, an article of beauty, an article of necessity—made to give the utmost satisfaction.

In addition it contains that clever "Slipper Heel" which makes all ankles appear slimmer and trimmer.

NOTES AND COMMENTS

Coleman people are to be commended for the support accorded to the Carnival committee, and neighboring towns also gave their share of support and thereby helped to make it a success. The greatest factor in the promotion of community welfare is co-operation, and this has again been exemplified in the willing help given the committee and by the attendance of the public during the two nights of the carnival. The proceeds are to be devoted towards a community enterprise, the skating rink, which without financial aid from the community as a whole could not continue to operate. Those who bear the burden and of the many details in preparing for a carnival give their services cheerfully, and have the joy and satisfaction in feeling that they are at least doing a share in making things just a little bit better for the town as a whole. Moreover, their example has a good leavening influence in inspiring others to work for the good of the town, for as its citizens, so is the town.

The greatest caution must now be exercised by people camping in the forests and tourists who stop by the way-side, for the dry weather has increased the danger of forest fires. There is not only risk to life but enormous damage caused to standing timber which it will take at least half a century to replace as merchantable timber. The tragedy on the Banff-Windermere trail of two or three seasons ago is well remembered by people in the west, when a car and its occupants were caught and suffocated or burned to death. Thoughtlessness is a trait to which all are prone, and therefore every individual should impress on himself the importance of impressing on others the care which must be exercised to safeguard the forests.

The Fernie Free Press reports that work on the B. C. section of the highway in the vicinity of Crows Nest has been held over till early next year, as the heavy tourist traffic caused so many interruptions to the road crews that it was impossible to continue this summer.

Editor Bartlett in his last week's issue said he and many others felt like "hell" after listening to the dry lecture of a lady peddler of religious literature. He should have forestalled the lady, in a manner similar to a well-known western bishop, who was visited by a delegation of the ranting religious type. He cordially welcomed them, and then before they had time to launch out on their pet theme, he said: "Now friends, let us pray," and having given them his benediction, sent them away without giving an opportunity to inflict themselves further.

A very beautiful local drive is to the old townsite of Lille. There are scenic beauties almost at our back door which compare with famed beauty spots of which a great deal of publicity is circulated.

The peak of the holiday season is here, and the mountains are attracting thousands from all parts of the continent. And right here in the Crows Nest Pass there are attractions in the way of natural surroundings which compare favorably with the rest of the world.

Noticing the hundreds of tourist cars that pass through daily, one sees all kinds from the swagger limousine to the humble "bug." During the past few days the heat has given to most of the occupants a bored look as they flash by in a whirl of dust. They do not appear to be enjoying it as well as they might or had anticipated. One man drove into a local service station this week with a family of eight and was "broke." The proprietor took pity on the children and grub-staked him to carry him on another lap of the journey. Which shows the folly of starting out on a long motor journey without a reserve of cash for emergencies.

On Monday an airplane containing seven passengers soared over Coleman on its way to Vancouver, completing the lap of its journey from High River to the coast city (over 500 miles) in less than six and a half hours. This completes its journey from Winnipeg, and it will return via the northern route. Premier John Bracken of Winnipeg was a passenger, and the trip was in the nature of a preliminary survey for the air mail routes which will be established in a few months.

Twenty-five or thirty years ago boys were admonished by parents for reading such highly colored fiction as Jules Verne wrote. Yet to-day we witness the extraordinary things which fired our imagination when on a hot summer's afternoon we would get on the shady side of the barn or under the trees and read those things which the older people called "penny horrors." Truth nowadays is even stranger than the fiction of those days.

Support Your Church

One of the perplexing problems of life is the amount of money one should contribute towards his minister and his church. Men who are free and open handed in almost every other respect, are often tight fisted when it comes to church matters. He will leave a tip of fifty cents or a dollar under his plate for the waitress and drop a nickel on the collection plate at the Sunday service. He will buy expensive luxuries for his bride to be and then probably stand the preacher off for the customary marriage fee.

But he likes to live in a community where there are churches—in fact would not live in one where there were no churches. He knows that church work and church attendance mean the cultivation of the habit of feeling some responsibility for others. All good men do

not attend church, but you will notice that most of the big men of affairs in the world belong to a church and attend its services quite regularly.

The preacher has a hard time of it at best. If he is grey, he is old. If he is a young man, he hasn't had experience. If he stays at home in his study, he does not mix enough. If he is seen on the streets, he ought to be at home getting up a good sermon. If he calls on some very poor family, he is playing to the gallery. If he calls at the home of the rich, he is an aristocrat. Whatever he does someone could have told him better. He has a fine time living off donations which never come in, and promises that never mature.

Speaking seriously, however, everyone should make it a point to contribute a fixed sum to his church, whether it be one dollar a week or one dollar a month, or five times these amounts, but let it be

something. "We have never heard of a man going bankrupt on account of his church contributions."—Cranbrook Courier.

A Camping Vacation

The school term ended, the roads in splendid condition, the car running with a contented purr, is a combination that just naturally leads the thoughts to a camping vacation.

The people of Alberta are so fortunate in having many natural beauty spots a short ride from the back door, that this form of holiday is becoming most popular every year. It is economical and it is healthy if certain precautions are taken.

Care should be taken to find out if all drinking water is pure. If this cannot be ascertained then the water should be boiled or chlorinated. The latter is a very simple

proceeding, any drugist will supply the lime and give the few necessary instructions.

If there is a baby or a toddler in the party who must have milk, it is wise proceeding to pasteurize it. No one can be sure if the milk bought has come from an infection free animal.

Before diving into a likely looking hole for the morning splash be sure there are neither rocks nor roots. Do not bathe when very hot or immediately after a heavy meal. It would add to the safety of the party if at least one member could swim well. Carry simple First Aid Kit.

Literature on First Aid can be obtained free from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

Here and There

(348) Another carload of Jersey heifer calves, 36 in number, has been shipped from Lennoxville to New Brunswick for distribution to Chatham and St. Stephen. This makes a total of five cars—162 head of high class Jerseys brought into New Brunswick during the last two months from Quebec.

A fast twenty-foot quarter mile race track built up and surfaced like a good tennis court will be ready for the 40th annual Dominion track and field championships to be held at Banff September 2 next. The infield has been specially prepared and resown and the grand stand enlarged to accommodate four hundred people. The meet in the fall will be the first time the Dominion championships have been held in Alberta since 1922. The Highland Gathering and Scottish Music Festival held every year at Banff, will precede and coincide with the championship meet.

Fourteen hundred Bibles bound in linen with red edges, placed across the front of the stage in the spacious concert room of the Royal York Hotel, Toronto, was the sight that greeted a congregation of over 3,000 people who crowded the big hall of the hotel at a Bible dedication service recently held there. They were for placement in every room of the hotel by the Odeon Association, whose Canadian president, C. W. Stewart, and international president, Samuel Fulton, of Milwaukee, were both present at the function.

A reduction of fifteen per cent. in the acreage planted of seed potatoes in New Brunswick this year as compared with 1928 is noted in the official crop report issued recently by the Soils and Crops Division, New Brunswick Department of Agriculture.

Calgary building records went over the million dollar mark for the month of June when 216 permits were issued for a total value of \$1,106,965. In June, 1928, permits issued numbered 136 to a value of \$688,206.

Record crowds attended the Brandon Exhibition held early in July, and, according to official statements, receipts at the main gate were fifty per cent. greater than last year, while those at the grand stand were 300 per cent. greater. The livestock entry was the best ever shown, according to many of the old-time visitors.

Here and There

(342) An Indian grave, discovered by accident by Canadian Pacific Railway employees at work near Boils, Alberta, last May, is considered by experts to be between 200 and 400 years old. It is thought the grave was originally above ground but the passage of centuries had buried the grave below the soil. An irrigation ditch was being constructed when the grave was discovered.

Tri-motored airplanes are being launched in one of the most spectacular fights in the history of aviation. War has been declared by the Canadian Government on the spruce bud worm and the airplane is to be the principal arm of the service. Planes each carry 1,600 pounds of powder, and will cut it while flying low over the tree tops.

The blueberry industry is showing much improvement in Yarmouth and Shelburne counties, Nova Scotia. Last year there were only 4,000 acres of crown land burned for blueberry growing; this year 10,000 acres have been burned. Value of crop last year was \$65,000 and it is estimated that the crop value could be increased to half a million dollars.

The province of Alberta has adopted Old Age Pensions, the funds for which are provided by co-operation between the federal and provincial governments. The scheme has now been adopted by all Canadian provinces from the Quebec boundary westward.

Though crops in several parts of Western Canada would be benefited by rains, crop outlook on the whole is very promising. Reports from all parts of Saskatchewan are generally encouraging. The Alberta report is good, especially the Peace River country where present prospects indicate one of the best crops on record. About 25,000,000 acres are now in wheat in Canada this year. Last year the Dominion harvested over 533,000,000 bushels of wheat, the largest crop in the country's history.

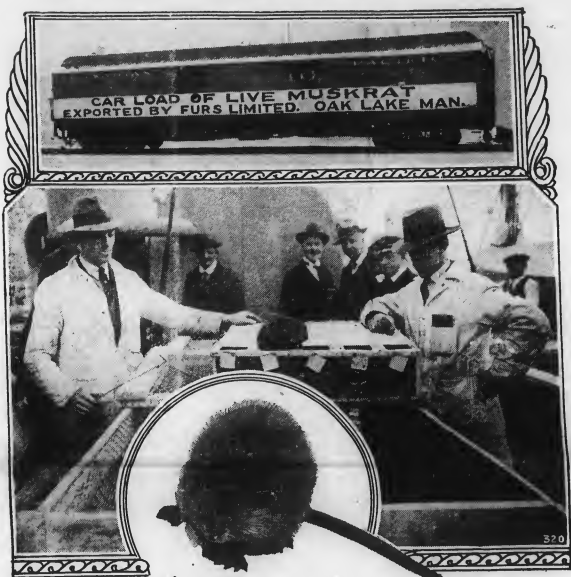

Visiting Prince Edward Island for the first time, E. W. Beatty, chairman and president of the Canadian Pacific Railway, will include Charlottetown in his tour of inspection of the Maritime Provinces scheduled for the middle of July.

A hotel within a stone's throw of the recently opened \$18,000,000 Royal York Hotel in Toronto, which housed nothing but hoboes, has been discovered by the Toronto police and nearly thirty "guests" were charged with petty larceny in the courts receiving sentences from six months down. The hotel, which was on the European plan, the inmates providing their own meals, was fixed up in an old house on the waterfront with cook houses, beds, fire places, stoves, thirty pounds of coffee and everything but a telephone and a bath.

Situated in the heart of the Rockies and of a huge natural game reserve and refuge, the animals at Banff are naturally very tame. Recently a bull elk who had been following with keen interest a game of golf played by Len Crosby, charter member of the Banff Golf Club, picked up the ball after it had been played onto the 14th green, chewed it and finally dropped it in a bunker. Mr. Crosby is willing to take his old duff that this occurred as described.

Opening of the Pines Hotel at Digby, Nova Scotia, late in June marks the interest taken by the Canadian Pacific Railway in Maritime Provinces tourist traffic. The hotel is handsomely appointed with special swimming and golf facilities and is a centre from which many interesting trips through the Maritime country and into New Brunswick can be made.

Car Load of Live Muskrats Take Long Trip

1—Freight car that carried the consignment. 2—Large cage on board S. S. Beaverford where the rats had more space and liberty. 3—Specimen of muskrat enjoying a carrot.

There were a thousand of them, all alive and hungry, shipped by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg, Germany, via Canadian Pacific freighter Beaverford. Pluffy and friendly they went through the long trip away from their native marshes in good shape and were never so tired that they couldn't put away their carrot rations. It took fifty men several weeks to capture the requisite number without damage and by the use of special traps.

Two attendants in charge of the rodents were kept moving twelve hours a day each feeding and watering them. They travelled overland in specially constructed galvanized iron crates netted with wire and with an enclosed trough in each from which fresh water was available. On board the Beaverford, large cages were built as shown above in which the rats had more space to move around.

This shipment which was made recently, constitutes a record for movement of muskrats or any other fur-bearing animal out of Canada overseas.

GEORGINA STYLES

WORLD HAPPENINGS
BRIEFLY TOLD

Negotiations between representatives of the German and Belgian governments for settlement of the long-pending marks questions have been concluded and an agreement has been signed.

The first loans issued in British Columbia under the Canadian farm loan scheme, and it is believed the first issued in Canada, have been made through the provincial loan board.

Peiping's "hello boys" went on strike because their wages were not paid on time. They did not stop work, but staged a "go slow" strike, carrying on their duties in leisurely fashion, and inconveniencing patrons.

Two United States fishing vessels seized by the Canadian Government Fisheries Protection steamer "Malaspina," at Goose Harbor, 100 miles south of Prince Rupert, recently, were released by Mr. Justice Martin in the Admiralty Division Court.

The much debated revised prayer book of the Church of England will likely be discussed in the British House of Commons again following its endorsement by the bishops assembled in the convocations of Canterbury and York recently.

Dr. Frank L. McKinnon, well known in the medical profession, died at Winnipeg recently after a brief illness. During the war he served for four years in Mesopotamia and was decorated with the Military Cross.

World automobile production increased by more than 1,000,000 vehicles in 1928, as compared with 1927, and set a new record total output for the industry, according to a report of the U.S. Department of Commerce. In 1928, Canada produced 242,382 cars, as compared with 178,064 in 1927.

Aaron Sapiro, famous co-operative marketing expert from the United States, will again tour Saskatchewan, this summer in the interest of a 100 per cent. membership for the Wheat Pool. The tour will start the latter part of August, according to a brief telegraphic despatch recently. Mr. Sapiro's voice broke down during a recent tour of the West.

Growth Of Co-Operation

Catching The Vision Of Things That Might, and Can Be Done

"Co-operation is a growth and a way of living. Each day a larger and larger number of men and women awaken to the full significance of the truth that no man can live unto himself. There are still those, even in this young country, where progress is second nature, who have not been awakened. They have not yet caught the vision of things as they might and can be. They simply do not understand, and we must not become impatient even with these backward members of society."—A. J. McPhail, President of Saskatchewan Wheat Pool.

The minimum resistance to the forward motion of the wings of an airplane is obtained with a thin wing which has a low lifting capacity.

A Severe Attack of
Dysentery
Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. S., Saskatoon, writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it."

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years; put up only by The T. M. B. Co., Ltd., Toronto, Ont."

Japan Favors Canadian Wheat

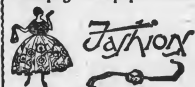

Wheat From Dominion Has Supplanted U.S. Product in Japanese Market

Quality and price are the factors which have enabled Canadian wheat to completely supplant the United States produce in the Japanese market, declares Tutchrow Shoda, president of the Nishin Flour Mills Company, Limited, who was in Vancouver in the course of a trip of inspection which will take him to the wheat centres of Canada, United States and Europe.

The company which Mr. Shoda heads imports an average of 250,000 tons of Canadian wheat annually. It is all shipped through Vancouver. Mr. Shoda has been in the milling business for thirty years and operates 12 flour mills in all parts of Japan with a combined capacity of 25,000 barrels per day.

Manchurian wheat offers no serious prospect as a possible rival for Canadian wheat in the Japanese market, according to Mr. Shoda, on account of the uncertainty of deliveries, lack of handling facilities and absence of organized grading.

Winnipeg Newspaper Union

An attractive printed silk crepe with smart uneven hemline in handkerchief drape, with shaped hip yoke to secure slender appearance for the larger woman is seen in Style No. 230. The moulded bodice has French V at front to break the width. It is finished with vestee forming a becoming square neckline. It is especially lovely in sheer printed crepe for more formal occasions. Flat silk crepe, crepe satin, georgette crepe, crepe Elizabeth and canton-faille crepe are smart suggestions. Pattern is designed in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust measure. Size 36 requires 3 1/2 yards of 40-inch material; Price 2 1/2 yards of 10-inch contrasting; Price 2 1/2 yards of 10-inch or coin (coin preferred).

"Last North" Is Prosperous

Canada's "Last North," the great Peace River Country, is "fast being settled and promised to have a very prosperous crop season this year," says Dr. W. J. Black, Director of Colonization and Agriculture, of the Canadian National Railways, who has returned from a tour of the territory.

The course of true love never runs smooth, and in later years the bachelor is often glad of it.

Rubber jewelry is the latest fad. We wonder if wedding rings will carry a no-blowout guarantee.

CAPTURES CHAMPIONSHIP

Helen Wills, who won the women's single championship at Wimbledon, England, defeating Helen Jacobs, her fellow Californian, in straight sets, 6-1, 6-2.

Cross Crossings Cautiously

National System Starts Drive To Combat Level Crossing Accidents

As a further effort in the campaign to reduce crossing accidents, the Canadian National Railways, through the Director of Safety, W. A. Booth, have distributed two thousand copies of a special card from the lithographed page of which, is an appeal to motorists, and others, to "Cross Crossings Cautiously." These posters are being sent out from the headquarters of the three regions in Canada, at Moncton, Toronto, and Winnipeg, Atlantic, Central and Western, respectively, so that every Canadian National grade crossing in the Dominion will be marked. The instructions are to place these posters on poles close to the railway crossings and on the right hand side of approach.

In the letter of instructions it is stated "The time is now opportune when aggressive methods must be taken to combat the increasing number of highway accidents."

Abolish Corporal Punishment

Juvenile Offenders In Britain May Escape Birch Rod

Youthful law-breakers in England will no longer have to fear the birch rod if a movement to abolish corporal punishment for young offenders is successful.

W. Clarke Hall, London police court judge, explained his opposition to the widespread practice of "birching" at a conference of 70 judges and presented a report showing that 80 per cent. of the boys who had been whipped in a certain court came back again charged with similar offences.

Prosperity Reflected

Marked Growth Is Evidenced On All Sides In City Of Regina

In a booklet issued by the Regina Board of Trade, dealing with statistics of the city as revised on June 1st, marked growth is seen on all sides in the capital of the province. Building permits for the first five months of the year reached a total of \$4,399,772 as compared with \$1,300,855 for the corresponding period of 1928, while bank clearings, postal revenue and other such indices to prosperity all reflect prosperity and expansion.

Registered Seed

It is hoped to have the plant of the Saskatchewan Registered Seed Growers' Limited, on South Hill, Moose Jaw, ready to handle the registered seed from the 1929 crop. This follows the passing of estimates in the House of Commons, on behalf of the Department of Agriculture, of \$150,000 for the seed cleaning plant and warehouse at Moose Jaw.

The Columbia Ice Field

The melting waters from the Columbia Ice Field in Jasper National Park, Alberta, feed the sources of three historic rivers in the Canadian west, the Athabasca, the Saskatchewan and the Columbia, which flow to three separate oceans.

More than half the arable land in Japan is in rice.

Most of the bacon eaten in Britain is imported from Denmark.

SUNDAY SCHOOL LESSON

JULY 28

THE STORY OF DANIEL

Golden Text:—"They that are wise shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars for ever and ever."—Daniel 12:3.
Lesson: Daniel, 1:1-21; 2:13-19; 4:18; 7:28; 8:13-18; 9: 20-23; 10:1-19; 12:9.
Devotional Reading: Psalm 46.

Explanations and Comments

The First Captives Taken To Babylon, 1:1, 2.—It was in the third year of Jehoiachin's reign, 606 B.C., that Nebuchadnezzar, King of Babylon, first besieged Jerusalem and carried back with him to the land of Shinar (the old name of Babylon, Gen. 10:10), Jewish captives, together with some of the treasures of the temple which he then had placed in the treasure-house of his god Mar-duk. Among the captives were Daniel and three other youths of our lesson. Daniel belonged to a family of high rank in Jerusalem, and, according to Jerome, was at this time only a boy.

The Training Of Daniel And His Companions In Babylon, verses 5-7. Nebuchadnezzar directed Ashpenaz, the master of his convicts, to take the Jewish youths of noble birth who were especially fair and bright and wise, and were therefore potential candidates for official positions, and teach them the language and wisdom of the Chaldeans. The king also directed that the youths were to be nourished with a portion of the food and wine which were prepared for himself. After three years they were to become his attendants.

Among the youths selected were Daniel and three companions, Hananiah, Mishael, and Azariah. Daniel's name meant "God is Judge"; Hananiah, "Jehovah is gracious"; Mishael's, "Who is what God is?" and Azariah's, "Jehovah has helped." Ashpenaz called them instead Belteshazzar, Shadrach, Meshach, and Abednego, giving them the name which, it is thought, had reference to Babylonian deities.

For First Offenders

Attorney-General 'Of Ontario In Favor Of More Frequently Suspending Sentence

The Attorney-General of Ontario, Hon. W. H. Price, would enlist the sympathy of judges and others in favor of more frequently suspending sentence on first offenders. After a long and varied experience it is his opinion that lives are frequently wrecked by court sentences for offences against the laws that are really not very serious in character. It is undoubtedly true that once a boy or man has the stigma of conviction against him he is badly handicapped in the race of life. Mercy is not being asked for those hardened in crime, but for those who have committed their first fault. One cannot but sympathize with the idea.

A woman first sheds a few tears—and then proceeds to open the telegram.

A spool of thread was unknown 123 years ago.

Michigan has by far the greatest coast line of any state.

No jumpy feeling

NOW when I drive through traffic

Nothing relieves tension as effectively as Wrigley's. The act of chewing, as motorists have discovered, is a gentle soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth and steadies the nerves.

Judgment Is Reserved

Privy Council Withholds Decision On Dominion Fisheries Act

The judicial committee of the Privy Council reserved judgment on the appeal of the Dominion of Canada from a ruling of the Canadian Supreme Court which held that sections 7a and 18 of the Canadian Fisheries Act of 1914, were ultra vires of the Dominion parliament.

The important question at issue is whether, under the British North America Act which gives it power to legislate "on seacoast and inland fisheries" the Dominion parliament can set up a system of licensing of fish canners as it sought to under the sections of the fisheries act.

The provinces of British Columbia, Quebec and Ontario, are respondents in the action as well as British Columbia fishermen of Japanese origin.

Towns Form Boards Of Trade

"There is no better evidence of faith in a district than the example of its business men forming a Board of Trade to advance its welfare," says the Edmonton "Chamber of Commerce News." "During the last month, boards have been organized at the following towns: Thorhild, (R. Baker, Secretary); Kinuso, (C. R. Field, Secretary); and Slave Lake (A. Pearl, Secretary)."

Record Of Fire Losses

Fire losses in Canada during the week ended July 10, 1929, are estimated by "The Monetary Times" at \$239,500, as compared with \$139,200 for the previous week, and with \$264,750 for the corresponding week of last year. From January 1, 1928, to January 1, 1929, the total fire losses totaled \$11,135,950, and from January 1, 1929, to July 10, 1929, they were \$12,976,250.

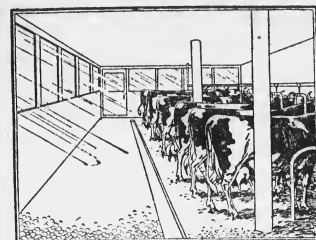

More than 1,350 shocks were felt during the Japanese earthquake of 1923, which took a toll of 200,000 lives.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light hit strong windows for cattle sheds, dairies, stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, school, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 132 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 130 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

The Singing Fool

By HUBERT DAIL
Copyright, 1933, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visit Blackie Joe's night club in downtown New York. Al Stone, Blackie's chief comedian and singing waiter, begs Molly, the ballad singer, to render a love song he has just written for her. Molly is disdainful and refuses even to read the song. Al is in love with her but she tells him harshly that she will never marry a waiter. Then she leaves her dressing room and goes to the Marcus table, trying to ingratiate herself with the famous producer. Al is in despair. Grace, the cigarette girl, who loves Al and wants to see him happy, asks him what is the matter.

CHAPTER V.

"Nothing's the matter, kid," said Al, making a show of throwing off his depression. But his own smile belied his words.

Grace gazed hopefully up into his face. Her expression said plainly that if he would only confide in her she was sure she could help him.

Slowly he studied her young, sensitive features. She was an awfully sweet kid, undoubtedly, and he liked her, but—

At that moment someone else arrived to interrupt his thoughts. Blackie, all excitement, entered the corridor, calling out:

"Get ready Al—you're on next!"

Al turned back lustre eyes toward Blackie. Then, suddenly, a plan that had been forming vaguely in his mind ever since Molly's harsh exit, took definite shape. He drew himself up and said quietly:

"Blackie, I'm quitting tonight."

Blackie retreated a step as if he had been struck, while a little cry of amazement escaped Grace. Her hand went to her mouth in a quick gesture of apprehension. Blackie was the first to recover himself.

"Don't be a fool, Al," he said earnestly, putting a hand on his singing waiter's shoulder. You've got a good job here and a following among the customers. You can't quit off-hand like this—why, it wouldn't be fair to me or to yourself."

Al nodded slowly. Yes, he had thought of that. But there were other things to be considered.

"You won't miss me," he suggested.

ed. "You've got lots of talent. And I simply couldn't sing a comic song tonight—it's impossible the way I feel. And Blackie—I don't want to be a waiter any more. I want to write. The waiter racket will never get me anywhere—I know it!"

Al's vehemence increased as the words poured from his mouth. He saw his way clearly now—he would leave this place and never see Molly again. That was the only way to solve his problem. Suddenly his sense of reserve was lifted from him; he determined to give Blackie his complete reason.

"The only reason I've hung on here," he exclaimed passionately, "was to be near her! She's turned me down and it hurts. She's the only person in the world I want, and without her—Well, you can see now why I can't stay."

His voice trailed off at his concluding words and his shoulders sagged hopelessly. Blackie nodded. Again his hand rested comfortingly on Al's shoulder. He could see how vitally this affected his prize singer—waiter—why, the boy's whole world had been turned upside down!

"Molly—eh?"

Al's head came up at the mention of the beloved name. He nodded. "I wrote her a song—a love song. I poured my heart into it because it was for her. I wanted her to sing it, so she'd know how I felt toward her, but do you know what she did? She wouldn't even look at it; she laughed—"

"I found the song-sheet she'd left in the room where she had walked on it."

Al glanced down at his hand, which still held the crumpled ballad. There was nothing more for him to say now; Blackie understood at last.

If Al's explanation of his sudden decision astonished Blackie, it produced reactions that were much more startling and complicated in little Grace. She was not only hurt because Al was hurt, but, for the first time, resentment flamed up in her toward Molly. How could Molly who was able to put such a wealth of feeling into the rendering of a ballad, act in such an unfeeling way toward Al?

Grace's slim white fingers pressed against the sides of her cigarette tray until the skin went white. A sudden wave of passionate anger toward the other girl swept over her; she wanted to turn, rush into the main room, and upbraid Molly for her heartlessness. Keen-eyed Grace knew that Molly had left Al to go to the Marcus table. She knew Molly was trying to worm her way into the good graces of the producer.

Then the anger passed as quickly as it came, while an expression of tender sadness crossed Grace's face. She realized that these admissions of Al's meant that she could never mean anything to him, never have a chance to help him. They meant that he would pass out of her life completely, perhaps within a few moments. She felt tears welling up in her eyes, but she bravely fought them down.

By this time a plan was emerging in Blackie's mind to aid his singing waiter. After all, Al was his friend as well as his star performer in the floor show, and he wanted to do him a good turn if he could.

"Why don't you read your song to Molly?" he suggested, with assumed carelessness.

"She won't listen," Al answered. "To her I'm only a waiter—a mug!"

"Then why don't you sing it to her?" continued Blackie, springing his idea. "She's out there now—she'd have to listen."

Al shook his head. "I can't sing it. It's a love song—a ballad. You know I've never been able to sing the heart-throb stuff. That's not my line. I'm a comic!"

"You haven't sounded so darn comic," Blackie countered quickly, "telling us all this. How do you know you can't sing a heart song? Have you ever tried it? I mean in public?"

"No, I've never tried one on the floor," Al admitted, "but I've tried rehearsing them and I was an awful flop."

"Yes, but don't you see, this is different. You wrote this song for

Molly and you feel it. If you go out there and forget yourself, and sing it at her, you can make her feel it. Take a chance—they can't kill you. If the song goes over she'll understand for the first time how you really feel about her. Look what you stand to win!"

Al stared into the earnest eyes of Blackie, almost convinced. Could he do it, could he put the same feeling into his singing that had possessed him when he wrote the song. If he could he might be able to touch Molly's heart, as Blackie suggested.

Little Grace watched anxiously the play of expression on Al's face. She saw clearly what Blackie was driving at before Al saw it, as she hoped desperately that he could prevail on Al to try the song. If the words touched Molly's heart at least Al would be happy, which would make Grace happy.

"I'll do it," he said finally, with gesture of decision. "I'll show her I'm something better than a waiter. I'll put everything I have into that song!"

Blackie wrung his hand. "Go to it, boy," he said enthusiastically. "You'd better make your entrance as soon as you can—when you're in the mood. Meanwhile, I'll see how the show's going."

When Blackie disappeared Grace also vanished down the corridor. But as Al came out into the main room a moment later he heard his name called. Grace slipped over to his side, looked up into his face with a forced, wistful smile and whispered:

"I'll be rooting for you, Al!"

"Will you, kid? Say, I appreciate it."

He raised his hand, patting her lightly on the cheek, as if he would have caressed a sister. He noticed that her cheek was too warm, but he thought it was merely from excitement.

As he turned nervously away Grace raised her hand to her face, where his hand had rested for an all too brief moment. The spot was burning. She saw him move lightly across the room and approach the pianist to give him the new music. The pianist's mouth opened in astonishment at the idea of Al Stone, the comic, singing a heart song.

Then Grace saw the man she loved heading for another woman. Would he put it over?

(To Be Continued.)

The Newest Discovery

American Chemical Society Told Gasoline Can Be Made From Trees

Gasoline made from trees is announced in a report to the American Chemical Society by Dr. Jacques C. Morrell and Dr. Gustav Egloff of Chicago.

They have produced an anti-knock motor fuel from the tar in the Douglas fir. While this fuel now is in the laboratory stage, the report says it can be made in commercial quantities from present wood waste.

"The development of a practical and economic means of converting wood waste into motor fuels," says the report, "has a deeper significance than the immediately important factor of conservation—it provides a source of motor fuels for the future which is under the direct control of man."

"Our great storehouses of potential motor fuel from petroleum, coal and oil shales are heritages from past ages, while wood tars and other vegetables are producible under controlled conditions."

Approximately 24 per cent of the standing tree is converted into useful products, while 76 per cent is wasted.

Want World Peace

A petition signed by 17,800 women voters of the district of Britain, asking the House of Commons to use all possible efforts to secure world peace by the fullest use of the Kellogg pact and the optional clause of the compulsory arbitration agreement, has been presented to the House by Albert Law, Labor leader.

Brick Yard For Prince Albert It is reported that the International Clay Products Company, of Estevan, have purchased property in Prince Albert with the intention of making bricks there.

New Invention a Success

Pittsburg Has First Aluminum Street Car In World

Pittsburg has the first aluminum street car in the world. This car, as either the Pittsburgh Railway Company, or the Aluminum Company of America will say, is the first example of the new lightweight aluminum car No. 6002.

This innovation in car building made its first trip through the Southside and Southville districts. The car is built for vision—for the passengers. It is windowless without the usual paneled obstructions and those same windows can be raised or lowered at leisure with the same ease and the same sort of gadget as an automobile.

The vehicle was built with special attention to speed, comfort and safety. The seats are form-fitting and can recline in ease in them. The floor is a non-skid composition. The lights are subdued, arranged so as to give their rays almost directly.

New Air Base Established

Mineral Exploration Company Will Make Headquarters At Sioux Lookout

The Northern Aerial Mineral Exploration Company have decided to make Sioux Lookout, situated on the main line of the Canadian National Railways, their headquarters for operations in the Patricia District, and they announced recently that a 200 acre camp site on the lake front has been laid out, which will be the nucleus of a modern village with all conveniences. It will contain shipways, hangars, offices, machine shops, and assay office. Sioux Lookout is the scene of much activity; engineers and scouts for the chief mining concerns are establishing headquarters at this point for the season's activities. They include the Mining Corporation, Atlas Exploration, Nipissing, Huronian Belt, and Lindsey and Connell interests.

Minard's Lintment for Neuralgia.

Reduction In Canada's Debt

Net Debt Of Dominion Decreased By \$92,620,133 Last Year

The net debt of the Dominion of Canada decreased by \$92,620,133 in the twelve months ended June 30 last, according to figures issued through the finance department. At the end of June, 1928, the net debt stood at \$2,244,142,450. On June 30 last, it amounted to \$2,151,522,317. During the first three months of the present fiscal year, which are covered by the statement issued recently, ordinary revenue of the Dominion showed an increase of \$13,529,152, over the corresponding period a year ago. The increase in ordinary expenditures is shown as \$591,262. The statement represents only the receipts and payments which have passed through the books of the finance department up to the last day of June.

Fresh Supplies In Demand. —Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape bottles and can be carried without fear of breaking.

Edmonton Soap Factory It is reported that a soap factory will be opened in Edmonton shortly by United States interests and will engage about seventy-five people. J. C. Moore, secretary, is the managing director. He is reported as stating that at present negotiations are pending for the purchase of a plant and site, also that machinery and supplies are now in transit.

Government To Aid Berry Growers The B.C. Government has undertaken to assist berry growers to preserve their surplus crop of the 1929 season and is advancing a loan to a company to be known as Berry Processors Limited, which will have plants at Victoria, New Westminster and Hazelton.

The up-and-coming man is pretty likely to succeed, unless he is up at four and just coming home.

Something In Weather Cycles

Records Show Seasons Have Practically Followed Same Curve Looking back over weather records makes one believe, says an English writer, that there really may be something in the sun-spot theory of a ten-to-twelve year cycle of weather over Western Europe. There was a spell of hard winter in 1895, another in 1906, a third in 1916, and now here we are having a fourth in 1929. The sun-spots, too, have followed more or less the same curve. But why should sun-spots affect only Western Europe? Must not the influence of the Atlantic Ocean be taken into the account?

Rebukes Cameraman

Colonel Lindbergh Did Not Like His Dishonest Method

Col. Charles A. Lindbergh delivered a lecture at San Francisco on honesty and integrity. The colonel, whose aversion to sound reels is well known, was approached by a "talkie" cameraman, who had a microphone concealed under his sweater. The flyer detected the ruse and said: "That's not honest; why didn't you approach me with the microphone in plain sight? That would be the honest thing to do." He refused to talk for the "talkie" because you have not been fair in this matter."

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and the precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 35 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"The eternal God is thy refuge, and underneath are the everlasting arms."—Deut. xxxiii. 27.

What though the way be rough and long?

What though we stumble as the blind? There's joy reserved for those who weep.

The everlasting arms are kind. What matters it if sorrows come? What though the night be dark and long.

The darkest cloud but hides the sun; The everlasting arms are strong.

One great purpose in all affliction is to bring us down to the "Everlasting Arms." What new strength and peace it gives us to feel them underneath us! We know that, far as we may have sunk, we cannot go any farther. Those mighty arms can not only hold us, they can lift us up.

They can carry us along, Faith, in its essence, is simply a resting on the everlasting arms. Theodore L. Cuyler.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Canada's Day-Old Chick Industry

Number Of Chicks Sold Each Year Runs Into Millions

The baby chick industry has grown to such an extent in Canada that the Department of Agriculture has taken action to safeguard the interests of the buyers of day-old birds. From a small beginning a few years ago the industry has already reached enormous proportions, and the number of chicks sold each year runs into the millions. The Department now provides a guarantee that a farmer buying chicks from an approved hatchery may rest assured that the stock from which the hatching eggs came conforms to a high standard of excellence, and that the hatchery in which the chicks were incubated was clean, sanitary, and well conducted.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Venice, Ontario.

Personal and Local

Mr. and Mrs. Arthur Jones are spending a holiday at Lethbridge.

Mr. and Mrs. G. Pattinson and Jean left yesterday for a trip over the Banff Windermere highway.

Mrs. James Smith and Mrs. W. Mather arrived this morning from Scotland.

Miss Margaret Fraser, of Hartford, Conn., and D. B. Fraser, of Edmonton, are visiting their sister, Mrs. Frank Graham.

Mrs. J. Collins of Parkside, Sask. is spending a few weeks visiting with her daughter, Mrs. C. J. Devine.

William Borrow was taken ill last week and removed to hospital, where an operation was performed and he is now getting along fine.

A young lady wearing a diamond ring set the tongues wagging, until they learned it was a fake, as a girl friend had given it to her after visiting the novelty store.

The oil sprinkled on Main street as an experiment shows that cars do not stir up dust to the extent they do on the surface which has no oil.

Winnifred Dunlop, familiarly known among her girl friends as "Pete," who is a patient in hospital following an operation for appendicitis, is making rapid progress.

Mr. and Mrs. Joe Kwansey went to Fort Crawford, B. C., where they will engage in fruit farming. Mr. Kwansey worked in McGillivray mine, and the family lived in Coleman for seven or eight years.

The silent policeman on Main street was given a jolt by a tourist car, but the car came off second best with a few bolts loosened. The policeman withstood the bump, but required a little reinforcing with more concrete around the base.

Mrs. Dentre Mary and daughter leave to-morrow night for Calgary to open in business there, after living here for over 17 years. Mr. Mary and son will remain here for the present. The family made many friends here who wish them success.

Women came to him to have their fortunes told—and in the midst of his mystifying performance the life of a beautiful society woman was blotted out! Doors were closed! Exits barred! Who did it? Why? How was it done? See this gripping, suspense holding mystery with Holmes Herbert. Rockliffe Fellowes, Margaret Livingston, Fred McKay. Mon, and Tuesday at Palace.

N. P. Eastwood, better known as "Bob the Tailor," and Harry Prondlock, patients at the hospital, were enjoying the balmy air, the bright sunshine and the birds twittering yesterday morning. While sitting on the verandah wrapped in a blanket Bob was ruminating over the fact that he had dodged the bombs and high explosives and never suffered any injuries, yet his first illness laid him low for over two months and necessitated an operation. Harry Prondlock was visited during the week by his daughter and her husband, Mr. and Mrs. Matheson, who with their children motored from Vancouver.

Carnival Receipts

The gross receipts from the carnival booths was \$1973.25, and from the Chesterfield and Ortho phonic ticket sale \$774, making total gross of \$2747.25.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.

Death of Steve Kapalka

The death of Steve Kapalka, aged 63 years, occurred at his home in West Coleman on Tuesday, following an illness of about three months and the funeral is to be held this afternoon, service being at the Holy Ghost church and burial in Coleman Catholic cemetery.

Mr. Kapalka came from Czechoslovakia to Coleman in 1907, and worked for the International Coal Co. His wife and son and daughter followed later, and the daughter (Annie) who was married to John Ondras, died about three years after her husband who was killed in the International mine, leaving five children.

Mrs. Kapalka and son have the heartfelt sympathy of the community in their bereavement.

NOTICE TO CREDITORS AND CLAIMANTS

In the estate of THOMAS JOSEPH NICHOLAS, late of Coleman, Clerk, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Thomas Joseph Nicholas who died on the 26th day of May, 1929, are required to file with Charles Nicholas, Esq., Coleman, by the 31st day of August, A.D. 1929, a full statement duly verified of their claims and of any securities held by them and that after that date the administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 8th day of July, A. D. 1929.

R. F. BARNES,
Barrister, etc., Coleman,
Solicitor for the Administrator.
